January 28/15 – Attended and chaired first CRD Planning, Transportation and Protective Services meeting. This was primarily an orientation meeting with the senior managers of various functions in attendance. It served to emphasize the breadth of the functions overseen by this committee and provided an opportunity for new and returning directors to address concerns and ask questions. The only additional item was a recommended change of zoning in the Juan de Fuca Electoral Area, which is directly governed by the CRD Board.

This was an open meeting with a few members of the public in attendance.

January 30/15 – Attended an all-day Strategic Planning session for the CRD Board, working through about 100 priority items to determine 10 top concerns. These will be considered further at another session on March 27/15.
